

Prof Briony Dow, Director of National Ageing Research Institute invites you to a free online public lecture

# The Decade of Healthy Ageing: 2021-2030

## What does it mean for you?

Tuesday 9th March 2021 | 6:00-7.00pm AEST

**Professor John Beard**

ARC Centre of Excellence in Population Ageing Research,  
University of New South Wales

The United Nations has adopted 2021-2030 as the Decade of Healthy Ageing. The Decade will have four themes: **changing the way we think feel and act about ageing; building communities that foster the abilities of older people; delivering person-centred integrated care and primary health services responsive to older people; and providing access to long-term care for older people who need it.** John will explain the Decade's background and underlying concepts and explore the potential it offers countries around the world for improving the lives of people as they age.
